THE SETTING

A Place Designed for Recovery

Bayberry Manor is a Grade II listed, 17th-century manor house set within private, landscaped grounds in the Warwickshire countryside. Steeped in character and warmth, the house has been thoughtfully designed to feel far removed from any clinical environment.

The Manor is approximately 30 minutes from Birmingham International Airport and is well connected to the national rail network. Chauffeur transfers to and from any mainland UK location are included in the programme fee for all Manor clients.

“*A genuinely restorative place to begin again.*”

TAILORED TO YOU

No two stays at the Manor are the same. Before and upon arrival, each client's needs, routines, and preferences are discussed, so that every detail of daily life has been thoughtfully arranged around them.

“Your recovery doesn't fit around our programme. The programme is designed to fit around you.”

“Every meal is prepared to order, with breakfast, lunch and dinner served daily, at times agreed with the client.”

Before arrival, the team takes time to understand each client's routines, priorities and expectations, allowing every aspect of their stay to be carefully planned. From therapy schedules and daily routines to dining preferences and environmental comforts, no detail is overlooked.

Personalised Dining

No set menu. Every meal is made to order by our Executive Head Chefs and served in the dining room, lounge, garden, or bedroom, at times that suit the client. Snacks and drinks are available throughout the day and evening.

Daily Living & Environment

Wake times, meal schedules, room temperature, bedding, housekeeping, visiting times, and evening routines are tailored around the individual.

Therapy on Your Terms

The level of contact from staff, from close accompaniment to complete privacy, is set by the client and adjusted as needs evolve. Therapeutic approaches are equally personalised, remaining aligned with individual preferences.

Supporting Professional Commitments

Treatment can be arranged around essential commitments, with therapy scheduled to accommodate meetings, calls and other obligations, allowing clients to remain engaged with important responsibilities.

Lifestyle and Wellbeing

Supporting physical wellbeing and personal interests, from gym and spa access to personal training, creativity and more.

THE PROGRAMME

The Heart of Recovery

The Manor Programme is entirely **one-to-one**. There is no group therapy, no shared timetable and no requirement to work alongside other clients. Every programme is designed around the individual, beginning with a thorough clinical assessment on the day of admission.
